FALL 2021
GREETINGS

During these uncertain times, your Louisville Zoo is here for you and our community. We are dedicated to providing a safe environment to help you and your loved ones unplug and re-connect with the natural world. We have lots of news to share about our autumn season, including updates about your favorite animals, upcoming events and more.

Below are a few of our featured stories:

LEMMERS’ NEW DIGS!
The Zoo’s lemurs have new exhibit features to explore and some new faces in the group. Learn all about the exhibit changes and meet the Zoo’s new lemurs!

BOO AT THE ZOO PRESENTED BY MEIJER TURNS 40
A favorite Louisville tradition since it began in 1982! In addition to trick-or-treating, Boo at the Zoo features an all-inclusive experience — including parking, a carousel ride, a tour of the spider House and a visit with the Headless Horseman!

CAMPS AND SLOTH TOURS
Choose from Safari Day Camps, Virtual Programs, Sippy Cup Strolls and behind-the-scenes tours featuring one of our adorable sloths, Sunni or Sebastian. These programs sell out quickly, so don’t delay!

We take our work home with us. PriceWeber is delighted to be part of the Louisville Zoo family.

The care you count on

How do we all adapt to this new reality? At Norton Healthcare, care that’s safe and easily accessible has always been our #1 priority. Today, that promise is stronger than ever. From online visits via telehealth to streamlined in-person appointments, you can get the care you need as safely and conveniently as possible. Just like always. Schedule now or learn more at NortonHealthcare.com.
Parting Is Such Sweet Sorrow

As we say farewell to Director John Walczak after 36 years, we wanted to share some words from the Zoo team about what they will miss about him most.

John is honest, dedicated, transparent, vigilant and always with the best intentions to better the Louisville Zoo ... and always with the staff in mind. His passion for the zoo business has been inspiring and we will miss his attention to detail and aptitude for exhibit design and construction. He’s very deserving of a long and gratifying retirement.

— Zoli Gyimesi, Senior Veterinarian

Each time John visited Glacier Run, he made it a point to talk to each staff member — volunteers, interns and keepers alike. Behind-the-scenes tours with John were always fun and made a lasting impression on our visitors.

— Tracy Unger, Glacier Run Keeper

They say, “Find something you like to do, and you will never work a day in your life.” John Walczak promoted me three times at the Louisville Zoo, affording me a career I had only dreamed of... which included lassoing Cuban crocodiles in prehistoric swamps, 20-foot pythons, Komodo dragons, mambas, cobras, Gaboon vipers and radio-tracking timber rattlesnakes in dense Kentucky forests — all while working with the finest people I have ever known. John did that for me!

— Bill McMahan, Ectotherms Curator

John Walczak made an effort to know not just my name, but the names of all staffers and volunteers. To John, we are all important, and he showed us how much he felt our contributions matter to the Zoo. As a 15-year-old, it made all the difference in the world. John showed me exactly what kind of person I wanted to be. I strive to never be “too important” to say a kind word with a smile.

— Noah Barnes, Marketing Seasonal

John has always been a calm presence when faced with tough moments, a positive voice in the office and a strong advocate within our community. His passion for the planet and people is unmatched. It has been an honor to work alongside him and I’m happy I get to call him a friend.

— Kelly Grether, Development Director

No task is beneath John’s help or notice. Though he is unbelievably busy, if you ask for his help or feedback, John will make time to assist you. He even had a fall at home before his retirement party — and should’ve gone to surgery — but he refused to miss his big farewell to the team. I wish him lots of rest and relaxation in his retirement!

— Heather Dishon, Communications Coordinator

John has a great passion for the Louisville Zoo and cares very much for the staff here; he will always do what he can to help any one of us. I started working at the Zoo as a teenager who needed a summer job, and as I had other jobs throughout my career I was always drawn back to the Zoo. The main reason for that was to be a part of something special that was made possible by John bringing so many good people together and cultivating our passion for this place. I’m so happy to be at the Zoo and I thank John for giving me a career pathway to thrive here.

— Sean Woods, Zoo Facilities Manager

Anyone with aspirations of being a leader could learn from John’s example. He is passionate about the mission and it shows in his interactions with guests, donors, staff and our animals. He is also the first to pitch in and lend a hand. John is known for picking up trash he sees during walks through the park. Does your director / boss do that? Ours does! John is there with us at midnight breaking down tables after Brew and moving items in the rain during ZooFan! It has been a privilege to work for him and I will continue to follow his example throughout my career. He will be missed!

— Lori Hagest, Development Coordinator

John has been the “Mayor” of the Louisville Zoo handling everything from animal exhibit design work to guest relations to fundraising in a span of hours. His love and concern for the Zoo never stops at 5 p.m. He has been 24/7 for 14 years! It would be great if we could bottle his enthusiasm for the Louisville Zoo and sell it in the gift shop.

— Margue Esrock, Administrative Assistant

John Walczak made an effort to know not just my name, but the names of all staffers and volunteers. To John, we are all important, and he showed us how much he felt our contributions matter to the Zoo. As a 15-year-old, it made all the difference in the world. John showed me exactly what kind of person I wanted to be. I strive to never be “too important” to say a kind word with a smile.

— Noah Barnes, Marketing Seasonal

John has always been a calm presence when faced with tough moments, a positive voice in the office and a strong advocate within our community. His passion for the planet and people is unmatched. It has been an honor to work alongside him and I’m happy I get to call him a friend.

— Kelly Grether, Development Director

As we say farewell to Director John Walczak after 36 years, we wanted to share some words from the Zoo team about what they will miss about him most.
John In His Own Words

When my wife and I left the Oklahoma City Zoo to accept the Louisville Zoo HerpAquarium Curator position, it was supposed to be a career stop of 3–5 years. The HerpAquarium didn’t even have a name at the time and was just a vague concept on paper. What a great opportunity to design the building, acquire the collection and assemble a great staff. What a fantastic experience and resume builder. However, the charm of the Louisville community wrapped its arms around us, and the Zoo stole our hearts. Now, here we are more than 36 years later, retiring in our adopted hometown. When we moved into town the day after Derby 111, I never dreamed I would have the honor of leading the Zoo as its Director for these last 17 years.

It isn’t possible for me to put into words how much I have enjoyed this journey. I have had the pleasure of working with amazing animals and incredibly dedicated people, including two of my inspiring predecessor directors: the late Bob Bean who cared so much about the dedicated staff that he would spend Christmas morning cooking brunch and serving the staff that special meal; and Dr. Bill Foster, the charismatic innovator who performed the first successful embryo transfer from a zebra to a quarter horse mare.

The staff is every bit as remarkable, with amazing stories of dedication. Do you remember the great snow of 1994 which shut down our town? Eleven of us walked into the Zoo to care for the precious animals that were depending on us on that January Monday. Assistant Director Steve Taylor had the record distance, walking in all the way from the heart of J-town through those 17 inches of snow. Another trooper who walked almost three miles was Marcelle Gianelloni, who also picked up Bob Bean’s tradition of making sure the staff had a great brunch every Christmas morning. Thelma Von Gagel, who had been the Zoo’s Trooper for 26 years, was the first to pick up the tradition of cooking brunch and serving the staff that special meal; and Dr. Bill Foster, the charismatic innovator who performed the first successful embryo transfer from a zebra to a quarter horse mare.

And the animals. I have learned so much from them. I have dreamed I would have the honor of leading the Zoo as its Director for these last 17 years. I could not have done any of this without you, our members. Your interest and support of your beloved Zoo is a cornerstone to its success. Thank you for always being there for us in good times and the tough times. Thank you for your understanding and support of your Zoo’s mission and conservation work. Thank you for coming to decades of “Boo at the Zoo.” Thank you for caring about rare habitat and endangered species. Thank you for caring about the health of your planet and supporting Zoo conservation and humanitarian efforts around the world. Thank you for helping us take the very best possible care of the precious animals. And thank you for allowing your Zoo to be part of your family and part of your lives.

You may have heard me say this before, but I wholeheartedly believe that there has never been a more important time for the role of an AZA-accredited Zoo. We provide a place to escape the everyday pressures of life, to associate with amazing wild beings and to make great memories. We are also the community’s touchstone for conservation education and learning about living in balance with nature. We need our Zoo, and the animals need us.

Yes, I am retiring, but I will always support this community treasure. I hope you will join me in ensuring this asset is cared for and thrives for generations to come. It’s been an honor to serve you,

Your Zoo Director

The Zoo has accomplished a great deal during this time:

- We have reproduced and reintroduced more black-footed ferrets, the most endangered mammal in the US, than any Zoo in the world.
- Islands, Gorilla Forest and Glacier Run have been selected the best exhibits of the year by the Association of Zoos and Aquariums.
- We have made great accomplishments in providing conservation education to our community through award-winning programs.
- And we have created a place for you and your family to make great memories.

EXHIBIT HISTORY

This exhibit space was included in the Louisville Zoo’s first master plan, developed in 1964. The enclosure’s rocky structure originally housed Barbary sheep, native to rocky mountains in North Africa. It was later inhabited by geladas, a species of Old World monkeys. The enclosure’s name changed to “Baboon Mountain,” which turned out to be a misnomer since geladas are technically not a species of baboon.

Lemurs were moved to the mountain-like enclosure in 1994. When the newly named Lemur Mountain exhibit opened, it became home to two male black-and-white ruffed lemurs from the Louisville Zoo, a male and female pair of black lemurs from St. Louis, and three male ring-tailed lemurs from a conservation park in Georgia. Two of the ring-tailed lemurs, Ivan and Faust, are still with us today!

NEW EXHIBIT AND NEW FACES

Along with the new design, the Zoo also welcomed some new faces to the lemur exhibit. Three ring-tailed lemurs, Hermes (10 years old), Hawthorne (9 years old) and Cedar (8 years old) joined us from the Utica Zoo in New York. These three males joined longtime animal ambassadors Ivan and Faust.

“The two older lemurs are 30 years old and the new group of three lemurs are about 10 years old, so there is a huge age gap. The activity level of the new, younger group is dramatically different. So, the two groups will be good neighbors and rotate part of each day outside,” said Michael Jones.

GHOSTS OF MADAGASCAR

There are over one hundred different species of lemur in the world today! Native to Madagascar and belonging to the group of primates called prosimians, most of the lemur species in the remnant wild are identified as endangered or vulnerable by the International Union for Conservation of Nature (IUCN). Sadly, the island nation of Madagascar is a critical hotspot for deforestation, commercial exploitation of wildlife and degradation of crucial habitats.

Lemurs have an important ecological role in their environment, but they also hold a cultural importance to the Malagasy people. The Malagasy used to believe that lemurs were phantoms of departed souls, due to their loud vocalizations and large eyes. Their name reflects this lore, deriving from the Latin word “lemures” which means “ghosts” or “nocturnal spirits.”

Ron Evans, who also serves on the Prosimian Taxon Advisory Steering Committee for the Association of Zoos and Aquariums, identifies ring-tailed lemurs as, “fun and inspirational ambassadors at the Louisville Zoo and a flagship species for conservation worldwide.” The new enclosure design will allow guests to form better bonds with these incredible “ghosts” of Madagascar and the efforts to protect their threatened habitats. Be sure to head to the Zoo to see your favorite lemur friends in action in their new exhibit space!

Ghosts of Madagascar

Louisville Zoo guests have some new faces awaiting them at one of the beloved first stops of the Zoo. The lemur exhibit has undergone a makeover! The new layout now features climbing structures, a heated hut in the center of the exhibit and misters throughout the enclosure.

Construction on the exhibit space began in 2020 and was completed in 2021. This original Zoo exhibit was retrofitted to create a space that put the welfare of the lemurs first and brought them to the guests’ eyeline.

The enclosure’s new design provides greater opportunities for enrichment and animal well-being. The new, heated dry shelter gives the lemurs an additional space option for rainy, windy and cooler days.

“The heater in the ceiling was useful this past spring on colder mornings and will be very useful in the fall as the temperature drops,” said Mammal Curator Michael Jones.

The exhibit also contains supplemental green space, incorporating some new plant species throughout the space. Even though ring-tailed lemurs are mainly ground dwellers, they are well-adapted to arboreal movement — locomotion through the trees — and the new structures, including a large tree on the north end of the enclosure, provide opportunities for the lemurs to put their climbing abilities to the test. The lemurs also have bedroom areas that they can retreat to. These areas are important for keeper observations of the animals. The Louisville Zoo’s General Curator, Ron Evans, said, “The retrofitting of this exhibit and the additions to this space will allow us to better monitor and respond to the needs of the ring-tailed lemurs in our care.”

Lovable Lemurs Have Wild New Digs!

“FLIPPING” OUT FOR FINSBAY

Finsbay, the gray seal pup, is getting to know the other pinnipeds in the seal and sea lion habitat in Glacier Run. He has been paired with the Zoo’s female harbor seal, Toney, for several weeks now, and he’s really gravitated toward her. They share time on deck and in the pool together and can often be seen swimming side-by-side or with Finsbay trailing right behind Toney.

The next step in the process is introducing the Zoo’s older male gray seal, Minnow, into the mix. Minnow is very energetic when it comes to training, but his overall demeanor is very calm. He has been sharing an adjoining bedroom with Finsbay and Toney for the last few weeks. The keeper staff will often see both gray seals observing each other through the “howdy panel” — mesh fencing between the bedrooms that allow the animals to see each other. The two gray seals were recently introduced without a barrier between them and everything went swimmingly. The staff is hopeful that the introductions will continue to progress well and eventually lead to all three animals sharing the same space for a prolonged period.

Finsbay is currently not on exhibit, but you can see what he’s up to by tuning in to the live Seal Cam. Just scan this QR code for a peek at the young pinniped!

REOPENED AREAS!

Following guidelines from the CDC and public health officials, the Zoo is now operating at full capacity for all members and guests. Members do not need to reserve tickets online to enter the Zoo. Indoor facilities, including the HerpAquarium and Islands Pavilion, have reopened. The Splash Park, tram rides, ropes course, playgrounds and the Conservation Carousel are also open for the season. Other animal attractions that are open include the Lorikeet Landing, the Boma Petting Zoo and the Wallaroo Walkabout. See our daily attraction schedule, food venues, updated health guidelines and more at LouisvilleZoo.org/today.

MONITORING OUR MONITOR LIZARD

Romulus, the Zoo’s male Komodo dragon, is growing up! He is currently a little over 5 feet long and weighs almost 18 pounds. Last year, in the spring of 2020, he weighed a little over 12 pounds, so he is growing quite nicely. The 3-year-old monitor lizard is expected to become around 8 or 9 feet long and could weigh in at around 185 pounds when he is fully grown. Now, that’s a big lizard! Romulus will be transferred to the Islands Pavilion sometime this fall. The exact date is subject to local weather conditions — Komodo dragons are tropical monitor lizards, so we try to keep him outdoors to soak in those extra UV rays until the last possible moment.

WALLABY WELCOME!

A new addition to our Wallaroo Walkabout joined us in February. The wallaby joey, Gunnar, was born to mother Alexa and father Nunga. Wallaby infants are very tiny when they are born, only about the size of a lima bean! Gunnar is much larger than that now, and keepers say he has a very dry and timid personality. He will approach the keepers by following another wallaby in the yard named Lulu. Lulu has a big appetite, so Gunnar has learned that if he follows Lulu to the keepers, treats will follow. We are excited to continue to watch this little marsupial grow up!

GETTING FESTIVE ABOUT FITZ

The beloved African elephant calf, Fitz, celebrated his 2nd birthday on August 2! If you’ve been following his progress, you know he loves wallowing in the dirt and running in the rain. He is getting more independent over time and can be seen trying to push logs around his exhibit space. Watching Fitz grow has been so much eleFUN!

SCROLLING OUR SLOTH SOCIALS

Our sloths have gone virtual! You can see our many animal ambassadors and get updates on Zoo news via the Zoo’s official social media channels on Twitter, Facebook, and Instagram — but the demand for content featuring the Zoo’s Linnaeus’s two-toed sloths has given rise to an account of their very own. Moving at about 13 feet per minute, they aren’t in any real rush to become #influencers. However, they are slowly making their way. Bring some fun to your feed and follow our sloths as they crawl to stardom on Twitter (@LouZooSloths).
Our ninth annual Trashformation contest award ceremony was held virtually on April 22, 2021! It was a different kind of culmination of this year’s Party for the Planet: A Month-Long Celebration of the Earth, powered by the LG&E and KU Foundation. Louisville Zoo Director John Walczak and LG&E and KU’s Vice President of Corporate Responsibility and Community Affairs, Angie Evans, virtually announced awards for the talented students whose work showed the most creativity in re-purposing recyclable trash into art objects. Sculptor Ed Hamilton also checked in from his studio to inspire some of our future artists, share insights about art and congratulate our winners.

**2021 WINNERS!**

**INDIVIDUAL**

Preschool to Kindergarten (tie)

Advance timed and dated event tickets required

All members must purchase a ticket online in advance to attend this fundraising event at the Zoo. Members receive special discounted pricing for Boo at the Zoo by entering their membership number and validating your online before purchasing. Not seeing a discount when you enter your info? No problem, call us at (502) 459-2287 or email ZooMembership@LouisvilleKy.gov.

More information on Boo at the Zoo on pages 16-19
Special ticket required. A Louisville tradition for 40 years, Halloween-time transforms your Zoo into a living storybook, complete with some of your favorite characters brought to life, fun music and a safe place for trick-or-treating for kids 11 and under. This party experience is designed to give you all the kooky you love with none of the spooky.

Your party price now includes ALL Boo at the Zoo rides, attractions and parking!

Enjoy a spin on the Spooktacular Carousel. Get up close to REAL creepy crawlies at the walk-through, free-crawling “not-so-itsy-bitsy” Spider House. Hear the tale of the legendary Headless Horseman of Sleepy Hollow — all FREE with your party admission!

Our reduced nightly capacity eliminates the scary traffic delays when arriving for the party. Parking is easy and convenient in the Zoo’s lot and included for party guests!

Thursday, Oct. 21
This special night will feature peanut-free treat booths and added non-food treats like stickers, pencils and more. Children with allergies can receive an allergy-friendly option at each of our booths.

Additional Support by

Special Thanks to

We take safety seriously! For updates to health policies and possible mask requirements before your visit, please visit LOUISVILLEZOO.ORG/TOGETHER.
Be sure to check out these fun party activities included with your Boo at the Zoo admission!
All attractions are subject to the cooperation of weather, animals and maintenance.

Spooktacular Carousel
Take a spin on the carousel before or after you trick-or-treat.

"Not-so-itsy-bitsy" Spider House
Come view the intricate and beautiful webs these beneficial arachnids weave. This popular walk-through, 1,000 sq. ft. spider house lets you stroll alongside REAL free-crawling spiders and their webs.

Headless Horseman of Sleepy Hollow
Journey back in time to the legendary Sleepy Hollow as you hear the famed tale of Ichabod Crane from one of the town’s guides. Don’t lose your head on this walk-through guided attraction as you spot the legendary Headless Horseman!

**Party Attractions**

**Costume Dos and Don’ts**
- Do get creative; we love seeing your homemade costumes.
- Do include your strollers in your theme.
- Do get everyone in on the fun! Some of our favorite costumes include the whole family.
- Adults should refrain from wearing masks that cover their full face. It can be scary for little ones!
- Don’t wear/bring balloons as part of your costume. One of your balloons could get away and end up with our animal ambassadors, that could be very dangerous for them. We know balloons can be fun, but they’re scary for our animal friends!
- This is a family-friendly party, adults should refrain from wearing “scary” costumes.

**Hot Tips**
- During Boo at the Zoo, the Zoo closes early to daytime guests. Gates close at 3 p.m. (visit until 4 p.m.)
- 5 – 6:30 p.m. is our most popular party time and tickets could sell out fast! Consider a later time. The Zoo comes to life after the sun sets, with twinkling lights, hanging lanterns and carved pumpkins.
- If you are looking for a safe place to trick-or-treat for kids with allergies, join our Allergy-Friendly Night, Thursday, October 21.
- Wear comfy shoes. The trick-or-treat trail is approximately 1.3 miles long or around 3,330 steps!
- Trick-or-treating is for kids 11 and under. Be sure to bring your trick-or-treat bag. Reusable treat bags will be available for purchase at the Gift Shop for $2 (while supplies last).
- Boo at the Zoo is an outdoor event that is rain or shine; bring rain gear if the skies look gray!
- Should extreme weather conditions require that we cancel, notice will be posted on our social media accounts and website.

**Viewing Animals**
While you may catch a glimpse of a few party animals, many of our animal residents will not typically be on exhibit in the evenings so they can rest.

There are no promises, but you are most likely to see maned wolves, grizzly and polar bears, snow leopards, bongos and rhinos.

**Costumes Dos and Don’ts**
- Treats for Moms & Dads!
  Guests 21 and older can unwind with an ice cold beer or glass of wine. There will be several craft beers on tap to choose from and frozen sangrias available at Bomassa and Wild Burger (additional fees apply).

**Thank YOU!**
This popular FUNdraiser provides critical support every year to the Zoo’s animal care programs, botanical garden, visitor experiences and conservation education. Many hands help create the magic of Boo at the Zoo! Our thanks to the entire “cast” and “crew” with special thanks to our partners and sponsors that help make it possible. And thank you too, of course, to our new party guests and those who return every year. There is no party without you!

**More Info?**
For all the details and a full list of FAQs — Visit LOUISVILLEZOO.ORG/HALLOWEEN
CINEMA SAFARI: BEE MOVIE
September 10 – Enter the Zoo from 5 – 8 p.m. * | Movie at 8:30 p.m.
Enjoy a movie under the stars at the wildest theater in town. Watch your favorite movies on our giant inflatable screen. Snacks and other refreshments will be available for purchase. Don’t forget to pack your blanket or lawn chair! Enjoy the sights and sounds as the animals settle in for the night, then join us in the field at 8 p.m. for this family favorite film. Some animals may not be viewable during your evening visit as they adhere to their normal nightly routine and may choose to retire to their indoor spaces. Attractions like the Glacier Run Splash Park, Ropes Course, and animal feeding/interaction attractions will close at their normal time. For more information, visit louisvillezoo.org/today.

Out of an abundance of caution, there will not be any pre-movie games.

More info at LouisvilleZoo.org/movies

* Movie nights are FREE to Louisville Zoo members and only $5 (from 5 – 8 p.m.) for non-members.

Flutter Fest
September 10 – 18
NEW for 2021 Join the Zoo all week long to learn about butterflies and our other pollinator pals.
The fun starts on Friday, September 10 when we kick off the week with a special showing of the Bee Movie. Then visit us throughout the next week (Monday – Friday) between 11 a.m. and 2 p.m. to learn about butterflies and other pollinators from our friends at Idlewild Butterfly Farm and Insectarium. Enjoy awesome displays and ask the experts all the butterfly questions you’ve been fluttering to know, then pick up a take-home craft (while supplies last). Join us on Saturday, September 18 at 11:30 a.m. for a special question & answer session with our butterfly experts and visit the butterfly house one last time before the fun flutters away. Want to attract butterflies and other pollinators to your garden at home? Join us for one of our new classes to learn all about pollinator gardens and take home a milkweed plant to start your home habitat! Visit louisvillezoo.org/butterflies to learn more about our new week full of fun and follow us on Facebook for special butterfly videos all week long!

As an accredited Zoo, and following the AZA Monarch SAFE program recommendations, the Zoo will not be hosting a tag and release program. To find out more about SAFE and how you can help save animals from extinction, please visit aza.org/safe-species.

Monarchs and Mimosas
Saturday, September 11 from 9 - 10 a.m.
$25 per person (adults 21+)
Start your day with a refreshing cocktail as you learn how to create your own pollinator garden from our experts. This special 21+ class includes tips on the types of plants that are most beneficial to attracting pollinators, how to identify the best location and type of garden for your space, and how to manage your plants to provide the best habitat year round. Guests will be able to enjoy mimosas and pastries during the class and then take home their very own milkweed plant to start their own habitat at home.

Habitat Heroes
Saturday, September 18 from 9 - 10 a.m.
$10 per registration (up to 4 people)
Join us before the Zoo opens for this special family-focused class about pollinator gardens. Our experts will be on hand to share gardening tips including which plants to select, what type of garden is best for your space and how to identify where to begin your garden. You can even learn more about which pollinators and other critters you might spot living in your new backyard habitat. Each group of 4 will receive one milkweed plant to start their own garden at home!

For additional information and to register for these classes, visit LouisvilleZoo.org/butterflies
Presented by

Saturday, November 13 at 8 a.m.
Dash over and join us for the 28th annual Throo the Zoo 5K run/walk. Enjoy the wildest 5K in town as you race “Throo” the Zoo alongside some of your favorite Zoo residents like giraffes, rhinos, flamingos, bears and more! All participants receive a free cotton t-shirt (with the opportunity to upgrade to a tech shirt for an additional fee), commemorative finisher medal and a ticket to the Zoo so you can return and enjoy your visit at a much slower pace.
Register today before the price goes up!

Swag’s Sport Shoes Costume Contest
Let your imagination run wild and dress in your favorite animal costume! Runners with the most creative costume will receive a prize package from the Zoo and our sponsors. No advance registration is required for the costume contest. Judging will take place online after the race via social media. Just visit the costume contest display after the race to take a photo, then submit it on the Zoo’s Facebook post on November 13.
Advance registration starts as low as $30
Online registration and additional details available at LouisvilleZoo.org/race21

VIRTUAL RUN
Unable to make the race on Nov. 13? You can still support your Zoo and get your run in via our Virtual 5K. We’ll even ship your finisher medal to commemorate the occasion!

SPONSOR THANKS

Every day, the Louisville Zoo welcomes visitors, supports conservation projects, creates once-in-a-lifetime memories and cares for endangered wildlife. Just like our animals, corporate partnerships with the Zoo come in many shapes and sizes. Your business or organization can partner with the Zoo through many different opportunities, including event or program sponsorships, group events and more! With attendance of over 738,000 this past year, your brand has the potential to reach a significant number of families in the region.

For info on how you can become a Zoo corporate sponsor, contact ZooSponsorship@LouisvilleKy.gov.

Special thanks to our generous sponsors for these programs:
SAFARI DAY CAMPS
Cost: $70 Members / $75 Nonmembers
Hours: 8:30 a.m. – 5 p.m. per day
Ages: 6 – 8 and 9 – 11
With smaller class sizes, enhanced experiences and safety measures, our new in-person camp programs are the perfect choice for families who want to give their child a fun, safe, camp experience this school year.

Fall Break Camps
Get ready for a howling good time as we explore animal survival with a storybook twist!

Sept. 28: What Big Eyes You Have
Do cats have the best vision in the animal kingdom? Can dogs only see in black and white? Separate fact from fiction as we explore how animals use their sense of sight to survive.

Sept. 30: What Big Ears You Have
We’re all ears when it comes to learning about how animals use their sense of hearing to survive. Explore how the size and shape of an animal’s ears help them do more than just listen!

Oct. 1: What Big Teeth You Have
You are what you eat! Learn how animal teeth can tell you how they live and what they eat; plus explore how some animals use their teeth for a lot more than chewing.

Ages:
6 – 8 and 9 – 11
Cost:
$70 Members / $75 Nonmembers

VOLUNTEERS

By Diane Taylor, Coordinator of Volunteers

VOLUNTEER AWARDS

Every year, the Louisville Zoo honors the incredible work of our dedicated volunteers. Several of these volunteers deserve special acknowledgement.

2021 Diane Taylor Spirit Award Winner
Wanda & William Jackson
Wanda and William have shared their time, talent and passion with the Louisville Zoo over the past 20 years. They started volunteering at the Zoo during our Halloween event in 2001. They then joined the Docent Program in 2004 and went on to become greeters in 2008. Wanda and William love volunteering at the Zoo. They enjoy interacting with Zoo guests and employees, and in doing so, epitomize the Zoo’s mission to “better the bond between people and our planet.”

2020 Diane Taylor Spirit Award Winner
Mark Goeing
Mark has displayed contagious enthusiasm and incredible creativity as a Zoo volunteer over the past 5 years. The HerpAquarium staff nominated him with this praise: “He is always ready to jump in and help out with anything. We can plug him in anywhere and he’s ready to help!” Mark began his Zoo journey as an employee before the HerpAquarium was even built and gave many years of dedicated service before shifting to a volunteer position. Thank you, Mark, for your years of service to the Zoo and our community. The staff members who nominated him said it best: “We’re very lucky to have very good, dependable volunteers!”

2020 Johnathan Michael Heaton Award Winner
Andrew John Chumbley
Andrew is the kind of volunteer who helps eagerly, regardless of what task he is doing. The staff at the HerpAquarium give high praise to Andrew: “It doesn’t matter if it’s a stinky anaconda or a smiling lazy gecko, he’s ready to jump in and help out. He helps out in any way he can. He’s a real asset and we hope to have him back soon.” Andrew started college last year at Murray State after graduating from Floyd Central High School, and we suspect he will continue to impress us and his professors with his hard work and passion.

2021 Jonathan Michael Heaton Award Winner
Nikolas F. Jones
Nikolas has quickly become an exceptional member of the Louisville Zoo community. He became a member of the Louisville Zoo Youth Board in 2018, and now serves as its president. He has volunteered in the Giraffe Area where he assisted keepers with cleaning various animal enclosures and preparing meals and enrichment for our animal ambassadors. Nikolas takes great pleasure in providing care to the animals at the Zoo. His leadership has positively impacted Zoo guests and staff alike.

PHILANTHROPY

The Louisville Zoo has been, and will continue to be, the trusted experts on animal care and the educators for the community about species conservation, environmental education and sustainability. This is our mission — the heart and soul of what we do — something many have heard Zoo Director John Walczak talk about often during his 36-year career at the Louisville Zoo. To expand on delivering our mission and deepening connections between people and animals, we are planning to renovate our MetaZoo education facility which houses our current animal ambassador program and their caretakers. The animals in this program are introduced to students, adults and families during education programs, summer camps, events, community festivals and outreach sessions. While holding spaces for these animals adheres to accreditation standards put forth by the Association of Zoos and Aquariums (AZA), looking ahead, new holding areas will be necessary to continue to meet guidelines.

Your Louisville Zoo is 100% invested in providing the animals that are housed here with world-class care and enrichment and are constantly working to support a species’ overall well-being. Therefore, this is an exciting moment for us — and the community. The planned $1.6 million MetaZoo renovations will help the Zoo meet AZA guidelines while also contributing to the Zoo’s ability to engage community members through on-site, virtual and off-site interactions with animal ambassadors. To date, the Zoo has received nearly $870,000 in cash donations toward this project. Many have asked about ways to honor and celebrate John’s 36 years of leadership, accomplishments and service to your Louisville Zoo. As you read earlier in this magazine, the transformation and growth of the Zoo under John’s leadership is remarkable. He has been involved in every aspect of change and always kept animal welfare, safety and conservation education at the core of all decisions he made for the Zoo. As a fitting tribute to John’s legacy, we invite you to consider a gift towards these necessary MetaZoo / Animal Ambassador Program renovations in his honor. This project allows the Zoo to update housing and enrichment for our animal ambassadors, and expands facilities for the Zoo’s education staff, programs and classes. Through continued conservation education with animal ambassadors, we will have the opportunity to introduce more of the community — people of all ages — to the wonders of the natural world and our place in it. The Zoo and the Zoo Foundation Board are hoping to celebrate John’s tenure with a successful fundraising initiative toward something which is near and dear to him. While all gifts toward this project are valued and very appreciated, all donors with a donation of $1,000 or more will be listed on a donor recognition panel near the MetaZoo upon completion of the project.

If you are interested in learning more, contact Kelly Grether at (502) 238-5615 or Kelly.grether@louisvilleky.gov. You can also make a gift directly in honor of John to celebrate his retirement and accomplishments by visiting LouisvilleZoo.org/John.

JOHN WALCZAK’S LEGACY
AND THE ZOO’S ROLE IN THE COMMUNITY

By Kelly Grether, Development Director

Thank you!

Friends of the Louisville Zoo thank you for going out on a limb and supporting Zoofari, Back to Brew 2021, Sip N’ Stroll, and LouZoo Clues.

We simply couldn’t do it without you.

Your support will directly contribute to the success of the Louisville Zoo, its animal ambassadors, and education programs that provide meaningful moments for children and adults from around the region.
